ERAS® 2023 Token Request Information

ERAS® 2023 Token:	002113263418EC
Request Date:	23 Feb 2023
Issue Date:	23 Feb 2023

ECFMG's records indicate that you participated in ERAS 2022. If you submitted a medical school transcript, Medical Student Performance Evaluation (MSPE) or photograph for the ERAS 2022 season, ERAS Support Services at ECFMG will reuse these documents for the ERAS 2023 season.

NOTE: If you do not see the Upload MSPE and Upload Transcript options, this means your medical school participates in the ECFMG Medical School Web Portal (EMSWP) ERAS Program which requires the school to upload supporting documents directly to ECFMG for ERAS. You must contact your medical school to request the submission of these documents.

Please use your Token to register with MyERAS. After you create or log in to your AAMC account, you will be prompted to register your Token.

IMPORTANT NOTES:

If you plan to participate in the 2023 NRMP Match, which will be held in March 2023, then you must register with the NRMP.

In addition, to be eligible to participate in the 2023 NRMP Match, NRMP requires that you have met the examination requirements for ECFMG Certification and that your passing examination results and satisfactory completion of these requirements are available by the NRMP Rank Order List (ROL) Certification deadline. See the Timeline page on the ECFMG website for the relevant deadlines.

On September 7, you may begin to apply to your selected programs using MyERAS. Programs will not have access to review applications until September 28. Applications submitted September 7 through September 28 will appear to programs as submitted on September 28. All dates are calculated using Eastern Time in the United States. You are responsible for monitoring the status of your ERAS application through MyERAS.

ERAS® Applicant Agreement

You, an applicant for a residency or fellowship training program through the Electronic Residency Application Service® (ERAS®), a service of the Association of American Medical Colleges (AAMC), must agree to the following terms and conditions (the "Agreement") to continue with your application.

This Agreement incorporates by reference the AAMC Website Terms and Conditions, the AAMC Privacy Policies (as defined below), the MyERAS User Guide, and any additional terms that you may authorize, certify, or otherwise agree to while using the ERAS service (for example, releasing board scores for inclusion in your application or certifying as to the accuracy and completion of your application when you submit it).

If you have any questions, please contact the ERAS Help Desk.

Applicant Responsibilities

You understand and agree that:

- You will provide complete, accurate, and current information in connection with your ERAS application, including supporting documents, during all phases of the application process for residency or fellowship training programs, and you will only present work as your own (for example, a personal statement), if it is indeed your own work.
- You are responsible for identifying which supporting documents (letters of recommendations (LoRs), board transcripts, etc.) are necessary for the program(s) to which you apply and for requesting such documents with enough advance time for the fulfilling party to respond to the request, and for verifying with LoR Authors that LoRs have been submitted.
- You are responsible for checking directly with the program to which you apply to ensure that the program is participating in ERAS, that you meet all eligibility requirements, and that your application is timely. Programs are responsible for maintaining the accuracy and currency of the program information in ERAS; the primary source of program information is the program itself, not ERAS. Consistent with the Refund Policy described below, ERAS will not provide a refund for an application to a program which is untimely, for which you are ineligible, or to a nonparticipating program.
- For participation in the National Resident Matching Program® (NRMP®) Main Match and Supplemental Offer and Acceptance Program® (SOAP®), as well as other activities to fill positions after the Main Match or after uniform offer dates at ERAS participating programs, it is essential that you submit all ERAS application materials and supporting documents through MyERAS. Your supporting documents (if applicable and if submitted) include your:
  - Personal statement
  - Photograph
  - Medical School Transcript (MST)
  - Medical School Performance Evaluation (MSPE)
  - Letters of Recommendation (LoRs) (capped at four per program)
  - USMLE transcript
  - COMLEX-USA transcript
  - ECFMG status report
